DETAILED ACTION

*** This office action is in response to Applicant's Pre-Amendment filed January 5, 2004. Claims 1-25 are currently pending.

Drawing Objection

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: Figure 3, reference numeral "51" is shown, but specification mentions as "52". Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. The objection to the drawings will not be held in abeyance.

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE SPECIFICATION: (Just for updating information of related parent application)

*** Specification page 2, paragraph [0001], change "This application is a divisional of application Serial No. 10/347,027, filed January 17, 2003, pending." to

--This application is a divisional of application Serial No. 10/347,027, filed January 17, 2003, now U.S. Patent No. 6,744,067.--

Art Unit: 2822

Allowable Subject Matter

2. Claims 1-25 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

The references including Farnworth (6,097,087), Hembree (2001/0015439), Akram (5,894,161), etc., of record, alone or in combination, do not fairly anticipatively disclose each and every aspect of the claimed method, or fairly make a prima facie obvious case of the claimed method, in combination with other processing claimed limitations as recited in base claims, the inclusion of forming a plurality of dice on a semiconductor wafer, the plurality of dice each including at least one die contact, and forming at least one wafer-level redistribution circuit on each of the plurality of dice for interconnection with others of the plurality of dice, the at least one wafer-level redistribution circuit including a redistribution circuit, and a bus conductor traversing each of the plurality of dice for electrically coupling with at least another one of the plurality of dice and at least one conductor for coupling the redistribution circuit to the bus conductor.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael M. Trinh whose telephone number is (571) 272-1847. The examiner can normally be reached on M-F: 8:30 Am to 5:00 Pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on (571) 272-1852. The fax phone numbers for the organization where this application proceeding is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
